

# TOUR REPORT NOTE :

## PHARMACEUTICAL VISIT :

### **BHARATESH HOMOEOPATHIC MEDICAL COLLEGE STUDENTS**

visited to Bangalore Bio-Plasgens (BBPBL), Bengaluru, was conducted on 3/11/2025 with 83 students and 4 faculty members, accompanied by Dr. Jyoti S. Dhabolkar and Dr. Basavraj Adi, and guided by Mr. Mahesh. The tour was well organized and comfortable for students. BBPBL, founded in 1987 by Dr. A. Y. Srinivasan, is a reputed homeopathic pharmaceutical company manufacturing quality products such as mother tinctures, dilutions, tablets, creams, and tonics under GMP guidelines. Students were exposed to key sections including the quality control laboratory, mother tincture and solution production, dilution preparation, and labelling and dispensing, gaining practical understanding of industrial manufacturing processes.

# **BOTANICAL GARDEN VISIT :**

**BHARATESH HOMOEOPATHIC MEDICAL COLLEGE STUDENTS** visited to Bangalore Bio-Plasgens **botanical garden** on on 3/11/2025 with Dr. Jyoti S. Dhabolkar and Dr. Basavraj Adi . The visit aimed to enhance our knowledge of plants, trees, and biodiversity. The garden was well-maintained and had a wide variety of medicinal plants, flowering plants, shrubs, and trees. Each plant was properly labelled with its botanical name, common name, and family, which helped us in learning plant identification. Special sections were dedicated to medicinal plants, aquatic plants, and ornamental plants

# ICMR VISIT NOTE :

On 23/1/26 **BHARATESH HOMOEOPATHIC MEDICAL COLLEGE STUDENTS** visited the **ICMR** (Indian Council of Medical Research) as part of our academic programme with Dr Jyoti S. Dhabolkar and Dr. Basavraj Adi The purpose of the visit was to gain practical knowledge about medical research and public health activities carried out by ICMR. During the visit, scientists and staff explained the role of ICMR in biomedical research, disease control, and health policy formulation in India . The ICMR visit was highly informative and inspiring. It enhanced our interest in medical research and highlighted the importance of scientific research in improving public health in India.
